### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

1. This office action is responsive to application entered on 02/05/2002. Claims 1-18 are pending in this office action.

### *Claim objections*

Claim 1, the term "data path macro cell" is unclear to what it means. Clarification or correction is required.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

- (e) the invention was described in-
  - (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or
  - (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

2. Claims 1-18 are rejected under 35 U.S.C. 102(e) as being unpatentable over Schlansker et al. Pat. No. 6408428.

**Regarding claim 1:** Schlansker teaches a system comprising:

memory for storing a text format template (col. 4, lines 43-52, col. 11, lines 29-42 and col. 17, lines 1-12);

controller configured to generate data representing a graphical layout of a data path macro cell (col. 4, lines 29-42 and col. 5, lines 40-45);

controller configured to generate a text format template comprising a variable, based upon said data representing a graphical layout of said data path macro cell (col. 15, line 66 through col. 16, line 4);

controller is further configured to substitute (determine) a predetermined value for said variable to generate a text format file representative of a data path macro cell having predetermined characteristics (col. 55, lines 20-30 and col. 11, lines 1-5) ; and

Art Unit: 2825

controller is further configured to generate a data file representing a graphical layout of a data path macro cell represented by said text format file (col. 4, lines 29-42 and col. 5, lines 40-45).

**Regarding claims 9 and 15:** These claims teach the method or program similar to features of claim 1 and rejected in similar manner except the retrieving (reading from a memory) function is rejected by Schlansker in col. 2, lines 1-6.

The remaining claims of 102(e) section contain features similar to the rejection of claims 1,9 and/or 15 and rejected in rationale.
